

# Lifeco

## Fire Hose

RESIST ABRASION

RESIST AGEING

LIGHT TYPE

RESIST STRIP

### Product Description:

Lifeco hoses consist of an exterior heavy duty all synthetic single or double jackets with unified construction that is free of defects and anomalies. And from a smooth internal lining that consists of a black ethylene propylene rubber (EPDM) tube for minimum friction loss and high abrasion resistant. Lifeco hoses are suitable for all fire fighting applications including municipal and industrial fire brigades, oil and petrochemical refineries, airports, agriculture purposes, construction industry, pumping and general industrial use, etc. Lifeco Hoses meet or exceed the requirements of UL 19 and bear the UL Mark.

### Lifeco's Hose Features:

- ▶ Heavy duty construction for optimum abrasion resistance.
- ▶ Weather, ozone and ageing resistant with long service life.
- ▶ Easy to repair, clean and maintain.
- ▶ The breaking strength of the jacket threads meets the requirements of UL 19.
- ▶ The tensile strength and ultimate elongation of inner lining meet the requirements of UL 19.
- ▶ Hose is designed to withstand 1 1/2 times the service pressure without rupturing or breaking any thread in the jacket as per UL 19.
- ▶ Burst and working pressures meet NFPA 1962 standards.
- ▶ Available in sizes 1 1/2" & 2 1/2".
- ▶ Comes in red or white colors.

### Single Jacketed UL Fire Hose

Working / Service Pressure : 150 to 200 PSI

Sizes : 1-1/2", 2-1/2"

Length: Unless otherwise specified, the hose shall be nominal 50 - to 100-foot (15m - 30m) lengths.

The length will be determined as required by purchaser.

### Double Jacketed UL Fire Hose

Working / Service Pressure : 220 to 300PSI

Sizes : 1-1/2", 2-1/2"

Length : Unless otherwise specified, the hose shall be nominal 50- to 100-foot (15m - 30m) lengths.

The length will be determined as required by purchaser.

Part No.	Hose Size	Working Pressure (PSI)	Burst Pressure (PSI)
LF4015SJ	1 1/2"	150	450
		180	540
		200	600
LF4025SJ	2 1/2"	150	450
		180	540
		200	600

Part No.	Hose Size	Working Pressure (PSI)	Burst Pressure (PSI)
LF4015DJ	1 1/2"	220	660
		250	750
		300	900
LF4025DJ	2 1/2"	220	660
		250	750
		300	900
